

DAC40CS-11-320

- ✦ Compact Surge protector, 2-pole Type 2 or 3
- ✦ Conductivity per pole: In= 20 kA; Imax= 40 kA
- ✦ Common protection mode
- ✦ Safe disconnect device
- ✦ Transverse / longitudinal voltage protection
- ✦ Energetically coordinated
- ✦ Pluggable protection module
- ✦ Remote signalling
- ✦ IEC 61643-11 / EN 61643-11 certified
- ✦ UL1449 ed.5 compliance

	Electrical Characteristics

Admissible short-circuit current	Iscrc	10 000 A																																																																																																		
Mechanical Characteristics																																																																																																				
Technology	MOV+GDT																																																																																																			
SPD configuration	Single phase																																																																																																			
Connection to Network	By screw terminals: L/N = 1.5-10mm ² (16mm ² rigid) or PE = 2.5-25mm ² (35mm ² rigid)																																																																																																			
Format	Plug-in modular box																																																																																																			
Mounting	Symmetrical rail 35 mm (EN 60715)																																																																																																			
Housing material	Thermoplastic UL94 V-0																																																																																																			
Operating temperature	Tu -40/+85°C																																																																																																			
Protection rating	IP20																																																																																																			
Failsafe mode	Disconnection from AC network																																																																																																			
Disconnection indicator	1 mechanical indicator - Red/Green																																																																																																			
Spare module(s)	MDAC40C-11-320																																																																																																			
Remote signaling of disconnection	Output on changeover contact																																																																																																			
Wiring for remote signaling	1.5 mm ² max.																																																																																																			
Max. Voltage/Current for remote signaling	250 V / 0.5 A (AC) / 30 V / 3 A (DC)																																																																																																			
Dimensions	See diagram - 1TE (EN43880)																																																																																																			
Disconnectors																																																																																																				
Thermal disconnector	Internal																																																																																																			
Installation ground fault breaker	Type 'S' or delayed																																																																																																			
Back-up protection device	50 A min. - 125 A max. - Fuses Type gG																																																																																																			
Standards																																																																																																				
Standards compliance	IEC 61643-11 / EN 61643-11 / UL1449 ed.5																																																																																																			
Certification	KEMA																																																																																																			
Part number																																																																																																				
821520321
